Portfolio

Bhandara, Maharashtra

Objective

Aspiring Full Stack Developer with hands-on experience in web and mobile application development. Seeking an entry-level software development role to apply problem-solving skills, contribute to real-world projects, and grow as a professional developer.

Education

B.Tech in Computer Engineering

Rashtrasant Tukadoji Maharaj Nagpur University, Nagpur

Sep 2023 – Jun 2026

Diploma in Electronics and Telecommunication

Government Polytechnic, Sadar Nagpur (Autonomous Institute)

Jun 2020 – Jun 2023

HSC (12th)

Nanaji Joshi Junior College, Shahapur

Jun 2020

SSC (10th)

Nanaji Joshi Junior College, Shahapur

Jun 2018

Skills

- **Programming Languages:** C, C++, Java, Python
 - **Frontend Technologies:** HTML, CSS, JavaScript, React.js, React Native
 - **Backend Technologies:** JSP, Servlets, Hibernate, Spring Boot, Node.js, Express.js
 - **Databases:** MySQL, MongoDB
 - **Tools & Platforms:** VS Code, NetBeans, Git, GitHub, DigitalOcean, PM2, Nginx
-

Projects

AI-Driven Helmet and Seatbelt Detection System

[Github Link](#)

Developed a full-stack AI-based system using YOLOv8 to detect vehicles, persons, helmets, seatbelts, and license plates from images and videos. Implemented OCR for accurate license plate text extraction. Built a Flask backend with JWT authentication and a React frontend featuring live webcam streaming, file uploads, and a violation dashboard.

Technologies: Python, Flask, React, YOLOv8, OpenCV, MySQL

BuddyWalk — Fitness Tracking Mobile Application

[Play Store Link](#)

Developed a real-time fitness tracking mobile application for monitoring daily activities and health statistics. Implemented features including step counting, distance tracking, calories burned, cycling activity tracking, achievement statistics, and group rankings/challenges. Integrated Google Sign-In authentication for secure user access. Built scalable backend APIs and database management systems for activity tracking and analytics. Deployed backend infrastructure on DigitalOcean Linux using PM2 and Nginx.

Technologies: React Native, Node.js, Express.js, MySQL, DigitalOcean, PM2, Nginx

Internship

Intern — Maharashtra Metro Rail Corporation Ltd. (Nagpur Metro)

Jun 2025 (4 Weeks)

Gained understanding of advanced telecommunication infrastructure deployed for Nagpur Metro operations. Worked with integrated systems including Fiber Optic Transmission (FOTS), CCTV, ACID, PIDS, PAS, Train Radio, Master Clock, and T-SCADA. Studied three-tier network architecture supporting secure, scalable, and real-time communication for smart urban transport.

React & Node.js Developer Intern — Radical Global

Dec 2025 – Jun 2026 (6 Months)

Designed and developed mobile application features using React Native, focusing on creating responsive and user-friendly interfaces. Implemented backend services and APIs using Node.js and Express.js, enabling smooth communication between the mobile application and server. Integrated frontend components with backend APIs, ensuring efficient data handling, optimized performance, and reliable application behavior.

Certificates and Courses

Full Stack Java Certification — Swati Computer Institute, Nagpur

Mar 2025
